

UTStarcom Services

...Support without Boundaries

Project Management Services

DEPLOYMENT

KEY BENEFITS

- **Improve return on assets**

Through effective project management methodologies, we help you reduce project errors and costly delays—and enhance your return on assets

- **Mitigate project risk**

Our proven expertise and ability to manage projects across diverse technologies and geographies helps ensure that your project will stay on track and on time

- **Accelerate time to market**

By enabling you to complete critical projects on time, we help you reduce time-to-market and maximize your competitive advantage

Disciplined, well-planned project management can keep everyone and everything on track and on time—and that often translates into lower expenses and faster revenue growth. That's the focus of our Project Management services, which can help you accelerate the assimilation of new technologies into your business and improve your return on assets (ROA).

Our focused team of experienced Project Management Professionals (PMPs) is ready to assist you. Many are certified by the Project Management Institute (PMI)—and all are able to apply the best practices of effective project management. Through our PMPs, UTStarcom can ensure that the appropriate focus is applied to completing your project on time, within budget, and with predictable results.

Our PMPs use structured, industry-standard methodologies to manage the key phases of every project: definition, planning, execution, change control, and close. By partnering with UTStarcom, you gain a variety of advantages:

- The benefits of standard and time-tested development and delivery processes
- A choice of overall program management or project-based onsite management support
- A track record of consistently high ratings from our customers

DELIVERABLES

Key Deliverables	Description
Project Scope Management	Keeps the project on course—and within scope—via thoroughly documented objectives, requirements and deliverables
Schedule Management	Ensures that the project stays on schedule by proactively establishing specific milestones
Communications Management	Uses a well-executed communication plan to keep all participants informed throughout the project
Resource Coordination	Enables timely and cost-effective resource allocation and acquisition

Features

UTStarcom is ready to ensure that the appropriate management focus is applied to completing your project on time, on budget, and with predictable results. Your dedicated PMP will serve as your primary point of contact for the duration of the project. Our Project Management services include but are not limited to the items described in the following table.

Project Plan	Coordination of all major elements of a program or project. The PMP will develop a comprehensive schedule that includes the required resources and deliverables.
Scope	The PMP will meet with key stakeholders at the start of a program or project to assess the needs of all participants.
Timeline	A comprehensive project schedule will be developed, including the project deliverables and required resources. The PMP will distribute the schedule and provide status updates on an ongoing basis.
Cost	To help you manage your budget, we provide comprehensive project reports that help you make decisions, track performance, and document results. The following are typical examples of the reports we can provide: <ul style="list-style-type: none">– Regular progress reports throughout the life of the project– Milestone tracking– Financial tracking– Closing reports at the end of the project
Quality	Monitors adherence to quality standards. UTStarcom is ISO 9000 certified to ensure consistent and predictable results from every project.
Human /System Resources	To make the most effective use of people, our PMPs will help you identify the manpower, finances, equipment and systems needed to successfully complete the program or project.
Communications	The PMP is responsible for generation, collection, dissemination, storage and disposition of information. They will develop a communications plan to facilitate the exchange of information between you and your suppliers.
Risk	Includes identification of risks as well as risk analysis and response planning.
Procurement	We will assist in identifying and acquiring third-party products and services that may be required to ensure a successful project.
